

IT'S "B👻👻" SEASON

Junior High Boys Basketball

By: Colt Holdbrook

Coach Sarah Wade was interviewed about Junior High Boys Basketball. Her goals for the season are to grow the 4th-8th grade boys basketball team's skills and compete with other teams. Coach Wade is on her fourth season of coaching Junior High Boys Basketball. In all, she is starting her ninth year of coaching basketball. She is most excited to compete against Harlowton. Coach Wade has coached high school girls basketball in Roberts. Yet, this will be her first year coaching Junior High Boys Basketball in Roberts. Overall Coach Wade is excited for this season and cannot wait to see what it will hold.

HAPPY HALLOWEEN

Keep track of how many Halloween drawings there are and turn it into Mrs. Pitts for a prize!

Who's New?

By: Molly Mitchell

Have you met Mrs. Sarah Clark? If you have not, then you should introduce yourself. Mrs. Clark has been in Roberts for one year. She has been teaching for fourteen years and loves to teach reading. She took a short break from teaching for a year then started back up again. This year, she is teaching second and third grade. When you introduce yourself, try to find out a bit about her. You could always ask what her favorite book is or what she is reading now.

Youth Group

By: Molly Mitchell

Have you ever heard of Youth Days? Many people have not. The gist of this conference is there are three speakers who come and talk to several high schools. The speakers spoke about their leadership experiences and how we can improve our abilities as leaders. I personally enjoyed Mrs. Alex Hurley who talked about her experiences playing and coaching softball. She also spoke about injuries, how those injuries affected her, and how she recovered from them. Roberts was invited and took ten students, a mix of freshmen, sophomores, and juniors. We listened to the three speakers talk then were able to go to work shops. The workshops were hosted by the speakers and the two MCs or Master of Ceremonies. These MC's were from the schools who hosted us; Great Falls and Belt. After the workshops, we had dinner that was provided for us. During and after dinner, all of the schools there introduced themselves. Shortly after, we were told what we were doing the second day. Roberts returned to our hotel and had a circle talk to communicate our findings.

On the second day, we had the opportunity to volunteer in the community. Roberts was split between nursing homes. Some of us cleaned while others bonded with the residents. Overall, it was a fabulous experience that, if you get the opportunity, you should go.

Volleyball Coaches

By: Maria Castro

I asked the wonderful volleyball coaches here at Roberts a few questions about their team and season. Here are their responses.

Starting off with Tess Kosel, she's on her 9th year of coaching volleyball. When I asked about her goals, she said she wants to see the full potential of the team, then work from there. Lastly, who are you looking forward to competing against is Roy/Winifred and Bridger. She followed that up by saying, they are both good competition and to see the girls full potential.

Moving onto Melissa Bertolino. this is also her 9th year of coaching. Her response to goals is to have steady improvement weekly; and just to have fun and learn more about the game of volleyball. Finally, she is most excited to compete against Bridger.
